Nexus Water Energy and Food in the Arab Region: LAS Nexus initiative

Dr. Hammou LAAMRANI
Technical Secretariat, Arab Water Ministerial Council
League of Arab States,
Advisor ACCWaM programme, GIZ

Outline

• Kickoff of the Regional Debate Doha February 2014
• Ministerial Councils supports
• Regional roadmap
• Concluding remarks
Launching NEXUS WEF Regional Dialogue

• The session initiated by the TS of the AWMC (The League of Arab States) in partnership with GIZ (ACCWaM programme)

• Scoping the opportunities and tradeoffs for the nexus in the Arab region (integration and coordination between the three sectors, transaction costs, resource use efficiency and potential for the transition to green economy and sustainable development).
Kickoff session Audience and speakers

- LAS (Department of Env. Housing, WR and SD and Department of Energy), AOAD, ACSAD, AFSED, UNESCWA, GIZ, AWC, RAED.
- 50 participants from 42 organizations
- Diverse stakeholders (Technicians, parliamentarians, NGOs, Private sector, CSO, government representatives)

Kickoff of the Regional Debate

Key outcomes (1)

- A nexus approach has a potential for the region: Needs a customized approach both at regional and national levels
- Some intersectoral collaboration (Mini-Nexi) is taking place
- Nexus requires governance, capacities, institutions, policies, solid RfD
- Nexus needs to be promoted at two parallel tracks, regional and national policy and at two levels: governance and implementation
- Need for a regional platform for knowledge exchange
- Need to pilot and scale up
- Need for a regional roadmap to guide and streamline the scattered efforts: Convergence and synergy creation
Kickoff of the Regional Debate
Key outcomes (2)

• NEXUS is an opportunity to foster the Arab joint action and further the Arab Regional integration building on countries comparative advantages and serving the Arab Market on strategic commodities

• Nexus is a buffer for regional supply security shocks

• Nexus is an approach to ensure equity between generations and between segments of society, it is not an end in itself

Ministerial Councils endorsement of Nexus

• May 2014: AMWC endorsed a decision to carry out expert studies on the current situation and the institutional and policy environment requirement to adopt and benefit from a nexus approach. GIZ and UNESCWA invited to mobilize resources, support the LAS efforts.

• September 2014, AMCE (executive bureau) supported the initiation of exploratory work on the added value of the nexus and its implementation

• November 2014, CAMRE endorsed a decision tasking the TS to organize an expert meeting and welcomed the decision of GIZ to financially support the production of policy briefs and the first Arab Nexus Experts.
Partnership Building

• LAS-GIZ (ACCWaM program and Water Sector Policy in Germany)
• LAS-AGU-GIZ
• LAS UNESCWA-SIDA potential for collaboration expressed by GIZ
• Efforts to engage AOAD and AAIA
• Arab fund for Socio-Economic Development
• Interest expressed by SIDA-Sweden, FAO

Regional roadmap Pillars and Components

• Based on the regional dialogue LAS/TS-AWMC has developed a guiding document “Regional road map” setting four priorities and needs for the adoption of the nexus and a outline of the strategic activities.
• Policy (regional versus National)
• Institutions
• Capacities
• Knowledge and expertise sharing
I. The region adopting pro-nexus policies

- Awareness raising among the Councils’ members (policy brief activity)
- Regional endorsement by four Council –Socio-economic council and further the Summit of heads of States, process initiated to be sustained
- Creating passways between existing regional sectoral strategies and Action plans
- Linking Nexus policies to existing national development strategies
- No need for a standalone WEF Nexus strategy and Action Plan?
- Benchmarking mechanism
- Facilitating alignment of national and regional policies on WEF: work with champion countries
- Experience sharing: Scaling up best WEF practices
- Reporting and follow up

Activities under this pillar

- initiated 2015, LAS GIZ AGU in partnership with ESCWA-FAO-UNESCO- ACSAD and other regional organizations: **Thematic Policy briefs (Governance- Capacities-Institutions)**

- GIZ considers to support the harmonization of the existing sector and cross sector strategies. To be coordinated by the TS of the councils hosted in LAS.
II-III. Institutional and Individual Capacities strengthened

- Regional level
  - Innovative CD initiatives for the Technical committees of the Ministerial

- National level
  - World class technicians
  - Mapping the champions units within key organizations to drive the WEF: Whose capacity matters for the adoption of the nexus approach (regional, national): Work with champions and change agents.

- Need for long term CD initiatives: One shot is not enough

- Fragmentation within sectors is a common feature requires Building capacities on cross-sectoral collaboration for planning, implementation and policy coherence (Regional-National and Sub National)

II-III. Institutional and Individual Capacities strengthened (2)

- Contribute to developing institutional capacities (to avoid expertise turn over) by creating a critical mass of competences and optimize institutions' adaptiveness. (Example of ONEE in Morocco merging water and energy authorities/ boards)

- Invest in private sector capacities to serve the Nexus WEF and make Nexus a business case through customized CD programs

- Invest in CD activities of all key stakeholders (informed partners – informed actions)

- Invest in CD of soft structures (inter-ministerial committees, and task force committees...)
Activities under this pillar

- EGM 1
- EGM 2
- Training of champions in the tree sectors (exposure to the concepts and tools, exercising at regional and national levels)
- Training on planning and implementing bankable projects

IV. Knowledge and experience sharing across the region

- Provide a virtual platform for KM-KS between experts to ensure proper sharing of experience (national and regional)
- Activity implemented: Arab Region Nexus Corner (established)
Governance

• At regional level:

A preliminary study on the structure to host the nexus coordination: 20 partner organizations interviewed came to the need to have a soft structures to coordinate rather than a dedicated structure.

Monitoring and evaluation

• Initiate CD to capacitate expert evaluators from a nexus standpoints.

**Next steps**

- Produce a marketing document for an Elaborated Roadmap: Cooperation welcome
- Invite other partners (Donors, regional and International organizations) to join and be part of the WEF nexus adoption and implementation initiative.
- Develop executive outlines of projects in consultation which countries, experts, partner organization to be shared with interested partner organizations for specific CD activities
- LAS-TS is in a keen to serve as a hub to coordinate all nexus activities taking place or in pipeline in the region, create synergies and joint action at regional level.
DON’T TALK ABOUT NEXUS, JUST DO IT
Rainer Soldansky (former GIZ Expert)
