ESCWA SDMX Workshop

Session: Category Scheme and Dataflow
Model: Category Scheme and Dataflow

Data or Metadata Structure Definition

Category Scheme

Category

Categorisation

Data or Metadata Flow
Add Dataflow: Link to Structure and Category

- Demographic and social statistics
- Labor
- Education
- Health
- ....
Objective
To link a DSD to a Category so that it can assist in a “drill down” selection process.

Exercise Overview

In this exercise you will:

1. Load a Category Scheme into the Registry.
2. Create a Dataflow and link this to the DSD.
3. Categorise the DSD with the “Indicators related to the Millennium Development Goals” category in the Category Scheme.
